## RESEARCH INTERESTS

---

### Genomic Medicine:

- Conducted a major survey of local physicians regarding their interest in and knowledge of Genomic Medicine concepts, July 2012, using Survey Monkey. Evaluated the results, August 2012. Outcome of the survey revealed a strong interest and need for physician education in the area of Genomic Medicine.

---

## RESEARCH INTERESTS (*cont'd*)

---

- Designed a new website based on survey responses indicating desired format. New website ("Putting Genomic Medicine into Practice") structured using the free WordPress.com platform. Content added with assistance of librarian associate with a genomic science background. Website launched November 1, 2012 (see <http://genmedinfo.wordpress.com/>).
- HON (Health On the Net Foundation) certification awarded August 2013, for "Putting Genomic Medicine into Practice" website. HON endorses websites offering quality health information.

### Medical Blogs:

- Developed a blog for the Medical Library on CRMC's Community Forum intranet, 2007. Created a poster "Incorporating a Hybrid Blog for the Medical Library into a Hospital Intranet Website" for the February 2008 Western MLA Chapters Joint Meeting.
- Wrote a paper explaining that project, published in the Journal of Hospital Librarianship, January 2009.
- Developed a tutorial to train physicians in creating medical blogs with WordPress; presented to the Fresno Madera Medical Society in February 2008.
- Adapted tutorial to residents and offered it at UCSF Fresno in the Summer 2008 workshop series.
- Adapted the tutorial for individualized physician office training, presented in Winter 2008.

### Rural Outreach Effort with Consumer Health Information:

- Developed an outreach program to seven rural areas within the Grossmont Healthcare District's boundaries. Successfully applied for a National Network of Libraries of Medicine Express Outreach Award, supporting a one-year project to implement this program. Trained public health nurses and county librarians in remote areas of East San Diego County regarding reliable health information resources. Created informational brochures for their patients/patrons. Completed the program March 2006.
- From May through August 2013, assisted with the UC Davis eHealth Broadband Adoption Project, which was similar to the Grossmont Healthcare District project noted above. Provided eHealth training to library staff of rural branch libraries in Tuolumne County, Mariposa County, and Madera County. Created a handout and presentation website, and served as a Library Field Trainer for this grant project which ended in August 2013.

### Hearing Loss Related to Chemotherapy:

- Developed a graduate research project, "Risk Factors for the Development of Hearing Loss Following Cisplatin Chemotherapy," San Diego State University, 1995. This involved the review and analysis of selected medical records from UCSD Medical Center and Children's Hospital, San Diego (dual IRB approvals).

---

## TEACHING EXPERIENCE

## WEBSITE & BLOG CREATION AND MANAGEMENT

---

### **URL: <http://genmedinfo.wordpress.com/> (Putting Genomic Medicine into Practice)**

Created this educational portal for local physicians after conducting a feasibility survey in July 2012. Site constructed using WordPress platform with assistance of a librarian associate with a background in genomic science. Launched November 1, 2012. Awarded HON certification for quality health information, August 2013.

### **URL: <http://www.fresno.ucsf.edu/library-services/> (UCSF Fresno Medical Library)**

As the Manager of the UCSF Fresno Medical Library, it was my responsibility to update and maintain the library website. Completed a major revision in January 2013.

---

## WEBSITE & BLOG CREATION AND MANAGEMENT (*cont'd*)

---

**URL:** <http://judykammerer.wordpress.com/> (**Keeping Current in Medical Librarianship**) and <http://judykammerer.wordpress.com/> (**How to Create Medical Blogs – used as a training tool during tutorials**)

Created a medical librarianship blog to help organize information and have it easily accessible from any computer. Also created an instructional blog on how to create medical blogs to help demonstrate the process when I give tutorials on that topic. Not currently being updated.

**URL:** <http://forum.cmcinet.org/learning/MedicalLibrary/Pages/default.aspx>

As the managing librarian of CRMC's Medical Library, it was my responsibility to update and maintain the library website on the hospital's intranet system, Community Forum. Completed a major revision in March 2007, including the addition of a hybrid blog to communicate up-to-date library information. Completed a second major revision in January 2009, to the SharePoint platform.

**URL:** <http://judykammerer.com/>

Created my personal website on May 14, 2003, after taking a course in Information Technology Tools and Applications from SJSU. The outdated platform is no longer being updated, although it continues to be useful in accessing a select set of resources.

**URL:** <http://www.herricklibrary.org/>

As the Library Director of the Herrick Community Health Care Library, it was my responsibility to update and maintain the library website. Completed a major revision in July 2005. Regularly evaluated the content and its organization so that it met the needs of library patrons and was user friendly.

---

## LIBRARY GRANTS AND AWARDS

---

Created an outreach project for the Herrick Community Health Care Library and was granted a National Network of Libraries of Medicine, Pacific Southwest Region "Express Outreach Award" for 2005-2006. Health Information Project title: "Creating Rural Networks in the Grossmont Healthcare District." The focus of this project was on training public health nurses as well as the staff of rural county libraries in East San Diego County in reliable health information sources available online. Customized "Information Prescription Pads" were created for the public health nurses to easily provide their patients with an Rx to obtain more information about their conditions. Two instructional brochures were created to provide information to patients and library patrons. One was a topical listing of reliable online health information websites and the other was on how to evaluate the value of health information resources.
