RE: Application for Change in Educational Objectives  
Intent-to-Approve Granted – School Code: 40231830

Dear Florence Dunn:

The Bureau for Private Postsecondary Education (Bureau) completed the review of your Application for Change in Educational Objectives. The review included your application received on February 2, 2018, and supplemental documentation. The Bureau determined that your request complies with the minimum standards contained in the California Education Code and the California Code of Regulations.

The proposed facilities in the application are compliant as described; however, the Bureau understands the campus is currently under construction and not ready to support the delivery of instruction at this time.

Consequently, the Bureau is issuing an intent-to-approve for California Health Sciences University as an assurance that the institution will be eligible for an approval to offer its proposed Doctor of Osteopathic Medicine once the proposed facilities are complete.

Please provide documentation to the Bureau upon completion of the proposed facilities; the Bureau will then issue an approval for the program.

If you require additional assistance on this matter, please contact Senior Education Specialist Drew Saeteune at (916) 764-4452 or via email at [drew.saeteune@dca.ca.gov](mailto:drew.saeteune@dca.ca.gov).

Sincerely,

Robert J. Bayles  
Education Administrator  
Quality of Education Unit
