

EMPOWER OUR STUDENTS

For most of us, our work is more of a calling than a job. We are passionate about improving the health outcomes of people living in the Central Valley. By investing in our students, you are not only benefiting yourself, but also our community.

CHSU EMPLOYEES, CAN WE COUNT YOU IN?

Each day faculty and staff make meaningful contributions toward the California Health Sciences University (CHSU) mission. Focused on excellence, you inspire and support CHSU students to transform health care in the Central Valley. However, many of our students need more than inspiration. They need financial help in order to complete their education at CHSU.

The Central Valley Community Foundation CHSU Scholarship Fund was established to provide some of the financial need and serves as a vital resource for attracting and retaining qualified students to become front line health care providers in our region. This year, our Board of Trustees has committed to match employee contributions, so we can empower more students!
