

# California Health Sciences University

## COLLEGE OF OSTEOPATHIC MEDICINE (COM) ADMISSIONS POLICY FOR THE CLASS OF 2026

### **I. DESCRIPTION OF DEGREE PROGRAM & PURPOSE STATEMENT**

The purpose of the College of Osteopathic Medicine (“COM”) Admissions policy is to provide guidance to applicants in the admissions process and to provide transparency in the admissions process. The core of CHSU’s mission is to educate physicians who will be prepared to serve the growing health needs of the Central Valley. CHSU is committed to developing compassionate, highly trained, intellectually curious, adaptive leaders capable of meeting the healthcare needs of the future through a performance-based education.

To accomplish its mission, it is essential that CHSU only admit those students that it believes will be successful in the COM’s program and, ultimately, the Osteopathic Medicine profession. Additionally, CHSU must seek to achieve diversity among its student body. CHSU has a compelling interest in making sure that talented applicants, from all backgrounds, are welcome at CHSU. As such, CHSU uses a holistic approach to admissions that considers more than just an applicant’s GPA and completed coursework. Specifically, factors such as an applicant’s extracurricular activities, relevant life experiences, research, work and volunteer experience (including, but not necessarily limited to, experience in an Osteopathic Medicine or other health care setting), family responsibilities, intellectual curiosity, respect for and knowledge of cultural differences, ability to overcome hardship, integrity, personal maturity, creativity, exceptional circumstances, status as a first generation college student and/or commitment to serving the Central Valley or disadvantaged communities (“Non-Academic Factors”). These Non-Academic Factors are all taken into consideration during the admissions process. Through these Non-Academic factors applicants should demonstrate motivation for and a commitment to health care.

This policy explains the admissions process for applicants at CHSU’s College of Osteopathic Medicine and provides guidance on minimum requirements necessary to be eligible to apply to the program. Additionally, the policy discusses record retention procedures for admissions records, and program academic and technical standards.

CHSU’s regional accreditor is the WASC Senior College and University Commission (“WSCUC”). The College of Osteopathic Medicine’s accrediting body is the Commission on Osteopathic College Accreditation (COCA).

# California Health Sciences University

## II. ADMISSIONS COMMITTEE DESCRIPTION

The COM Admissions Committee and the Admissions Staff review application materials for applicants to the College, along with input from selected faculty members who have interviewed applicants in accordance with procedures established by the College. Recommendations regarding admissions decisions are made to the Dean; the Dean of the College makes the final decision regarding whether an applicant is admitted to the College. The Admissions Committee is comprised of faculty of the College of Osteopathic Medicine, and University or College-level admissions personnel, as appointed by the Dean.

The COM Admissions Committee's review of candidates for the College of Osteopathic Medicine program helps to ensure that CHSU is selecting a qualified and diverse student body for the program. These values are not compromised regardless of the size or quality of the applicant pool.

The COM does not discriminate on the basis of race, ethnicity, color, sex, sexual orientation, gender, gender identity, national origin, age, disabilities or religion, or based on any other membership in a protected class. CHSU-COM selects applicants in compliance with CHSU's Governing Statute Number 4, Non-Discrimination and Equal Opportunity Statement.

## III. COMPETITIVE APPLICANT PROFILES

National averages for qualifying GPA and MCAT scores for matriculating in an Osteopathic Medical College can be found at <https://choosedo.org/admission-requirements/>.

A competitive applicant will likely have one or more of the following or similar qualities:

- A demonstrated commitment to healthcare as evidenced by volunteer or employment in a health care setting;
- A demonstrated commitment to or understanding of the osteopathic medical profession (e.g. shadowing one or more osteopathic physician);
- Service to the community (e.g. volunteer humanitarian/altruistic works);
- A determination to learn the continued advancements in biomedical sciences through research and other scholarly activities.

## IV. PRE-APPLICATION AND TIMELINE

## California Health Sciences University

Prior to applying to attend CHSU, applicants are strongly encouraged to explore and gain a thorough understanding of what it means to have a career in Osteopathic Medicine. Importantly, applicants should understand the CHSU Team Based Learning model which emphasizes collaborative learning. Applicants are also required to commit to abiding by all CHSU and CHSU-COM policies and procedures upon enrollment, including but not limited to policies regarding smoke-free and drug-free requirements.

CHSU uses a rolling admissions process to select successful applicants. Therefore, admissions decisions will be ongoing throughout the application process. Applicants will be notified by mail and phone if they have been accepted into the COM. Instructions and deadlines regarding the AACOMAS application are available from AACOMAS ([www.choosedo.org](http://www.choosedo.org)).

### V. ADMISSION REQUIREMENTS

The following admissions requirements will be explained in detail below:

- Letters of Recommendation;
- Prerequisite Coursework and Requirements;
- Bachelor's Degree;
- MCAT; and
- English and Other Language Skills

#### A. Letters of Recommendation

CHSU requires three (3) letters of recommendation to be submitted with the applicant's application. Only applicants satisfying this requirement will be considered for admission. The following are the required **letters of recommendation**:

1. One (1) letter from a physician (D.O. or M.D.) that details the applicant's exposure to patients and the applicant's ability to be successful in a medical setting. It can reflect shadowing, volunteer, or work experience. A letter of recommendations from an osteopathic physician is recommended; AND
2. One (1) academic letter written by a college science professor who has instructed the applicant. The letter should detail the applicant's aptitude in a challenging academic setting.
3. One (1) additional letter from someone who has interacted with the applicant in a meaningful way and can attest to their fitness as an osteopathic physician. Appropriate choices include an additional physician, an additional college professor, or a work supervisor.

## **California Health Sciences University**

NOTE: A pre-med or pre-health profession committee letter that includes items listed above will satisfy the requirements for those items.

### **B. Additional Requirements for Letters of Recommendation**

Letters must be on letterhead and include the recommender's academic credentials and a signature, as well as a date. Applicants are responsible for informing evaluators of the requirements when requesting letters.

Letters from relatives, spouses, family friends, or the applicant's family physician will not be accepted – authors should be as objective as possible.

Letters will only be accepted through AACOMAS or Interfolio. Applicants who wish to utilize Interfolio must have letters sent to AACOMAS. CHSU-COM does not accept paper letters of recommendation, or letters sent directly from the evaluator or applicant via either mail or email. CHSU-COM reserves the right to refuse any letter that is not submitted on professional or college/university letterhead and signed by the evaluator.

CHSU-COM is not responsible for receipt or processing of materials that do not conform to these guidelines.

Application packets will only be reviewed by Admissions after all required letters are submitted to AACOMAS.

### **C. Prerequisite Coursework Required for Admission**

Admission to the College of Osteopathic Medicine requires completion of the undergraduate prerequisite courses identified in the chart below. Applicants may not use the same course to fulfill more than one (1) prerequisite.

When determining whether a course satisfies a prerequisite, the COM looks at a variety of factors including, but not limited to, the course description provided by the education institution where the course was completed.

The number of units listed below for prerequisite requirements is the minimum number of units required in each subject area. Different education institutions use different systems for determining the number of units for similar courses. Generally, each semester unit is equivalent to one-point-five (1.5) quarter units and applicants to the COM must fulfill either the number of quarter units or semester units stated in the chart. In special circumstances where a course taken does not fit

## California Health Sciences University

the traditional quarter or semester system, the COM Admissions Staff (“Admissions Staff”) may review the course syllabi and course descriptions to ensure the applicant has learned the necessary content for each subject area.

Prerequisite Course	Semester Hours	Quarter Hours
Behavioral Sciences	3	4
Biology	8	12
Inorganic or General Chemistry	4	6
Organic Chemistry	8	12
Physics	8	12
English (e.g. Composition/Literature)	6	9

Additional college courses that are recommended but not required include: Biochemistry, Anatomy, Physiology, Genetics and Immunology.

### D. Prerequisite Coursework Requirements

The following requirements apply to all prerequisite coursework identified in section V.C., above. **Notwithstanding the above, however, CHSU-COM will be following the guidelines of AACOMAS with respect to matters related to the impact of COVID-19 on student pre-requisite coursework.**

1. *Must Be Taken at Accredited College or University*

All prerequisites must be completed at an accredited four-year undergraduate university, four-year undergraduate university extension program or two-year community college located in the United States prior to enrollment in the COM. For international students, please see separate provisions in this policy applicable to international coursework.

2. *Deadline for Prerequisite Completion*

Applicants must complete or plan to complete all prerequisites prior to July 1 preceding enrollment in the COM, unless an exception is approved by the Dean’s Office.

3. *Letter Grade of C or Better Required*

## California Health Sciences University

Students must earn a minimum grade of at least a “C” or higher to satisfy completion of each prerequisite course. Grades of “C-”, pass/no pass, credit/no credit will not be accepted.

### 4. *Courses Must Be Taken Ten (10) Years or Less Prior to Enrollment*

Generally, all applicants must complete all prerequisite requirements within ten (10) years or less prior to enrollment in the COM. Applicants who have taken prerequisite courses more than ten (10) years prior to enrollment in the COM may be required to repeat that coursework prior to matriculation.

### **E. Bachelor’s Degree Required**

To be eligible to apply to the California Health Sciences University College of Osteopathic Medicine, a bachelor’s degree (B.S. or B.A.), or equivalent, is required. For applicants that will have earned a bachelor’s degree prior to enrollment, any undergraduate major is considered but a strong science background is essential. In order to be eligible for admission, an applicant must satisfactorily complete a minimum total of (one-hundred eight) 108 quarter units or (seventy-two) 72 semester units of academic coursework at an accredited college or university in the United States or an equivalent foreign university prior to enrollment in the COM. Prerequisite courses will count towards the minimum number of units required.

### **F. MCAT Examination**

To be eligible for admission, all applicants must have achieved a competitive test score on the Medical College Admissions Test (“MCAT”), with no MCAT subsection score below the 15<sup>th</sup> percentile. Only MCATs taken within the past three (3) full calendar years will be eligible to satisfy this requirement. For July 2022 matriculation, MCAT scores must be from January 1, 2019 or later.

### **G. English & Other Language Skills**

The ability to express oneself in both oral and written English is essential to the practice of Osteopathic Medicine in the United States. Accordingly, the COM requires that all students be able to clearly communicate both orally and in writing in English.

Additionally, proficiency in a language other than English is a skill highly desirable for practicing physicians to allow them to communicate effectively with diverse patient populations. This skill is especially important in addressing the needs of

## California Health Sciences University

diverse patient populations located in California's Central Valley. Accordingly, an applicant's proficiency in a language other than English, demonstrated by the applicant's native language skills or by foreign language course work, is preferred by the COM but not required.

### H. Admissions Process and Requirements

The following steps comprise the COM's admissions process:

- AACOMAS Primary Application Submission;
- Primary Application Review;
- Invitation to Complete Supplemental Application, including CASPer assessment;
- Candidate Interview Offer;
- Interviewers Recommendation;
- Admissions Committee Post-Interview Discussion
- Recommendations to the Dean;
- Dean's Admission Decision.

Each of the above steps in the admissions process are described below.

#### i. AACOMAS Primary Application Submission

Applicants must first complete a **primary application** through a convenient and centralized online application service, American Association of Colleges of Osteopathic Medicine Application Services ("AACOMAS"), available to all accredited osteopathic medical schools. AACOMAS allows prospective students to complete one (1) application that is verified and subsequently distributed to all osteopathic colleges the applicant has designated. Applicants for admission to the COM are required to submit an application with all of their enclosures through AACOMAS at <https://aacomas.liaisoncas.com/>. Applicants who need to complete paper applications as an accommodation due to disability should contact the COM's admissions office for more information.

Applicants are required to submit all coursework transcripts, MCAT scores, final transcripts verifying all completed coursework, letters of recommendation, personal statement, and an application fee through AACOMAS.

For help with questions related to primary applications, contact AACOMAS Customer Service at 617-612-2889 or

## California Health Sciences University

[aacominfo@liaisoncas.com](mailto:aacominfo@liaisoncas.com).

### ii. Primary Application Review and Invitation to Complete Supplemental Application

Once CHSU-COM has received the applicant's primary application from AACOMAS, the application will be screened by the Office of Admissions Staff ("Admissions Staff") for minimum initial requirements prior to an invitation to complete a supplemental application. These minimum requirements include all of the following:

1. Overall cumulative grade point average (GPA) of 3.0 or higher (on a 4.0 scale).
  - GPA calculations are completed by AACOMAS, and will be based upon all courses completed at the time of application.
  - If a student has retaken a course multiple times, all grades received for that course will be accounted for in calculating cumulative GPA.
2. MCAT score of 498 or higher.
  - No score for MCAT sub-sections lower than the 15<sup>th</sup> percentile.

Applications that meet the minimum initial requirements will receive an email containing login instructions and information on how to complete and submit the supplemental application. The supplemental application may include essays and other questions to assess the applicant's knowledge of CHSU-COM's mission and values, as well as topics related to healthcare. The supplemental application process also requires payment of a non-refundable fee. This fee may be waived only for applicants who have been granted an AACOMAS Fee Waiver.

Minimum requirements for receipt of a supplemental application invitation will be published by the COM prior to each admissions application cycle.

Only those applicants invited to submit a supplemental application will be required to participate in the CASPer Assessment Program. The CASPer test is an online situational judgment test designed to evaluate key personal and professional characteristics. Results from the CASPer exam are not solely determinative of whether an applicant will be admitted or denied admission; it is one of several tools which the COM uses to make admissions decisions. The applicant is responsible for paying both the

## **California Health Sciences University**

CASPer test fee and the fee for the results to be distributed to the COM. Use of the CASPer increases fairness in applicant evaluation by providing an additional measure of traits such as professionalism, ethics, communication, and empathy. The Supplemental application will also include an invitation to complete the Duet assessment, which is paired with the CASPer test. Duet is a values assessment of both program and applicant, and is designed to indicate program alignment. The Duet assessment is not required, but it is encouraged of all applicants.

Completed Supplemental Applications will be evaluated in a holistic manner by the Admissions Office staff to determine which applicants will be offered an interview.

### **I. Candidate Interview Offer and Admissions Committee Recommendation**

CHSU College of Osteopathic Medicine admissions process includes an interview. The interview will be completed in-person or remotely, by one or more members of the faculty. Interviewers will not receive any information about the candidate's scores, grades, experiences, or application before the interview. The purpose of the interview is to assess oral communication skills, professionalism and the applicant's potential to become an osteopathic physician.

If an applicant is offered an interview, the applicant will be provided several interview dates from which to choose. All travel arrangements and connection/technology costs will be the applicant's responsibility.

Interviewers will score the applicant's interview; results will be forwarded to the Admissions Committee. The Admissions Committee will review the entire Admissions file for each applicant and will make recommendations regarding admission of each applicant to the Dean for final decision. These recommendations will be either to: 1) accept; 2) place on a waiting list; or 3) not accept.

### **J. Dean's Admission Decisions**

The Dean makes all final admission decisions. The Dean will notify in writing those applicants to be accepted to the COM. The Admissions Staff will notify in writing those applicants who have been placed on a waiting list and those who have not been accepted for the current admissions cycle.

The Admissions Staff will maintain a list of highly competitive applicants who may be offered acceptance at a later date. Applicants on the waiting list could be called by the Admissions Staff when a vacancy occurs, up to the last day of COM Orientation for the new academic year.

## **California Health Sciences University**

### **K. Student Enrollment Agreement**

The Student Enrollment Agreement must be completed and submitted to the college in order to show intent to enroll in the program. The Student Enrollment Agreement is a legally binding contract when it is signed by the applicant and accepted by the institution. In signing the Enrollment Agreement, the applicant acknowledges the catalog and student handbook have been made available to read and review.

### **L. Seat Deposit**

Accepted students are required to pay a seat deposit to secure their seat in the class. Both the Enrollment Agreement and seat deposit must be received before the offer deadline, or the seat will be forfeited. Offer deadlines will be determined based upon AACOMAS Traffic Guidelines and will be communicated to the accepted student in the CHSU-COM Offer of Acceptance and Enrollment Agreement correspondence. The signed Enrollment Agreement must be received before the seat deposit can be accepted. The deposit will be applied toward the student's first year of tuition.

Students choosing not to attend the COM after paying the seat deposit will receive a partial refund, minus the non-refundable portion of \$250.00

### **M. Right To Cancel**

A student has the right to cancel their Enrollment Agreement and obtain a refund of all charges paid through attendance at the first class session or the seventh day after enrollment, whichever is later, less the non-refundable two-hundred and fifty dollar (\$250) fee. Students who wish to cancel their enrollment agreement must notify the CHSU-COM Office of Admissions of the cancellation by email or mail. If a student obtains a loan to pay for an educational program, the student will have to repay the full amount of the loan plus interest, less the amount of any refund.

### **N. Verification of Transcripts**

After the admission decision is made and prior to the student's matriculation in the D.O. program, the COM Admissions Office will confirm that all final transcripts have been received by CHSU and prerequisite coursework has been completed. All information provided by applicants will be verified. Applicants are expected to be honest regarding the information provided throughout the admissions process. Failure to provide honest responses is grounds for rejection of the application, rescission of an offer of admission or, after matriculation, expulsion from the COM.

## **VI. RECRUITING A DIVERSE STUDENT BODY**

## **California Health Sciences University**

In support of CHSU's Mission, Vision, and Values, CHSU-COM strives to enroll a student body that reflects the diversity of the California Central Valley, representing a wide range of life experiences and backgrounds, as set forth in the University's Non-Discrimination Policy. The COM works to attract a diverse pool of qualified applicants through formal and informal recruiting efforts with institutions of higher education and with student associations and organizations which reflect underrepresented groups. The Admissions department supports outreach programs to increase educational opportunities and medical school preparedness to local college and high school students.

### **VII. MINIMUM TECHNICAL STANDARDS FOR THE D.O. PROGRAM**

All applicants are required to comply with the Technical Standards for the D.O. program. The California Health Sciences University acknowledges Section 504 of the 1973 Vocational Rehabilitation Act and PL 11-336, the Americans with Disabilities Act (ADA) 19903, and requires minimum technical standards be present in students accepted into the Doctor of Osteopathic Medicine (D.O.) program.

The program at CHSU is a rigorous and challenging academic program that requires students to possess specific characteristics and abilities within the cognitive, affective and psychomotor domains, referred to here as technical standards. An applicant or student must be able to combine the functional use of visual, auditory and somatic senses to observe and demonstrate professional knowledge and skills presented in the classroom, laboratories and practice settings.

Conferring the D.O. degree on a student graduating from the COM indicates that each student has demonstrated that they have acquired and can apply the knowledge and professional skills essential to the roles and functions of a practicing physician.

The acquisition and application of these skills ensure the safety of patients served by the student and physician. Therefore, each student must be able to demonstrate proficiency in these skills with or without reasonable accommodation. These skills are as set forth below in the following Technical Standards that each student must possess in order to successfully complete all of the academic/curricular requirements for the D.O. degree.

The University reserves the right to deny admission to any applicant who cannot meet the Technical Standards as set forth below, with reasonable accommodations, as determined by the application process, interview and student disclosure. Every applicant is considered without regard to disability. Applicants are not required to disclose the nature of their disability(ies), if any, to the Admissions Committee. Any applicant with questions about these Technical Standards is strongly encouraged to discuss his/her specific issue(s) with COM Student Affairs prior to the interview process. If appropriate, and upon the request of the applicant, reasonable accommodations will be provided. Once admitted to the program, students will be expected to maintain the Technical

## California Health Sciences University

Standards and demonstrate them through their coursework, interaction with peers and faculty, and in their professional experiences throughout the program. Reasonable accommodation for persons with documented disabilities will be considered on an individual basis, but a student in the Doctor of Osteopathic Medicine program must be able to perform in an independent manner. Students who fail to demonstrate the Technical Standards while in the program will be evaluated and appropriate action (e.g., remediation, counseling, or dismissal) will be taken. Because this expectation is separate from academic achievement, simply maintaining a passing GPA is not sufficient to prevent a student from being dismissed from the program. Furthermore, the College of Osteopathic Medicine reserves the right to dismiss any student from the program who either fails to disclose information relevant to their qualifications under the Technical Standards or falls out of compliance with the Technical Standards after admission to the program.

### A. Observation

A student must be able to observe a patient accurately at a distance and close at hand, noting nonverbal as well as verbal signals. The student must be able to observe and interpret presented information. Specific vision-related requirements include, but are not limited to the following abilities: visualizing and discriminating findings on monitoring tests; reading written and illustrated material; discriminating numbers and patterns associated with diagnostic and monitoring instruments and tests; reading information on a computer screen and small print on packages or package inserts; distinguishing shapes, colors, markings, and other characteristics of small objects.

Observation requires not only the functional use of the sense of vision, but other sensory modalities as well such as hearing and other somatic senses. For example, observation can be enhanced in some situations by the use of the sense of smell.

### B. Communication

An osteopathic medicine student should be able to speak, hear, and observe patients and other health care professionals in order to extract both verbal and non-verbal information, and must be able to communicate effectively with and about patients. Communication (in English) includes speech, reading, writing and computer literacy. The student must be able to perceive and respond appropriately to all types of communication (verbal, non-verbal, written) with faculty, staff, peers, patients, caregivers, family of patients, the public, and all members of the health care team.

Specific requirements include, but are not limited to, the following abilities; reading, writing, speaking and comprehending English with sufficient mastery to

## **California Health Sciences University**

accomplish didactic, clinical and laboratory curricular requirements in a timely, professional and accurate manner; eliciting a thorough medical history; and communicating complex findings in appropriate terms that are understood by patients, caregivers, and members of the healthcare team.

Each student must be able to read and record observations and care plans legibly, efficiently, and accurately. Students must be able to prepare and communicate concise but complete summaries of individual activities, decisions and encounters with patients. Students must be able to complete forms and appropriately document activities according to directions in a complete and timely fashion.

### **C. Sensory and Motor Coordination and Function**

Osteopathic Medicine students must have sufficient motor function to elicit information by palpation, auscultation, percussion, as well as other diagnostic and therapeutic maneuvers.

Basic laboratory skills to accomplish basic practice tasks utilizing both gross and fine motor skills, include but are not limited to: being able to perform basic laboratory tests (urinalysis, CBC, blood glucose testing, etc.), carry out diagnostic procedures (endoscopy, paracentesis, etc.) as well as read and interpret EKGs, X-rays and ultrasound images. Other motor activities include performing suturing, first aid and/or cardiopulmonary resuscitation in the clinical setting.

Students must be able to transport himself or herself to off-site clinical settings in a timely manner.

Osteopathic Medicine students must be able to execute motor movements reasonably required to provide general care, osteopathic manipulation treatments and emergency treatments to patients. Examples of emergency treatment reasonably required of physicians are cardiopulmonary resuscitation, administration of intravenous medication, application of pressure to stop bleeding, opening of obstructed airways, the Heimlich maneuver and performance of basic obstetric maneuvers. Such actions require coordination of both gross and fine muscular movements, the ability to stand and equilibrium with the functional use of the senses of touch and vision. Students must be able to lift a minimum of forty (40) lbs. and stand for a minimum of one hour.

### **D. Intellectual, Conceptual, Integrative, and Quantitative Abilities**

A student should possess sufficient intellectual, conceptual, integrative, and quantitative abilities to complete a rigorous and intense didactic and experiential curriculum.

## **California Health Sciences University**

Problem solving, the critical skill demanded of physicians, requires all of these intellectual abilities. In addition, students must be able to comprehend three-dimensional relationships and to understand the spatial relationship of structures. They must be able to sit in a classroom and participate in a full eight-hour day.

The practice of medicine requires periods of distinct concentration in surgery, trauma, emergency room care and other patient settings. Osteopathic Medicine students must be capable of extended periods of intense concentration and attention.

Students must be able to retain and recall critical information in an efficient and timely manner. Students must be able to identify and acknowledge the limits of their knowledge to others when appropriate and be able to recognize when the limits of their knowledge indicate further study or investigation before making a decision. Students must be able to interpret graphs or charts describing biologic, economic or outcome relationships. They must be able to learn through a variety of modalities including, but not limited to, classroom instruction, small group activities, individual study, preparation and presentation of reports, and use of computer technology. Students are expected to be fully alert and attentive at all times in classroom and clinical settings.

### **E. Behavioral and Social Attributes**

Students must possess the physical and emotional health required for full utilization of his or her intellectual abilities, the exercise of good judgment, the prompt completion of all responsibilities attendant to the care of patients, and the development of effective relationships with patients.

Students must adapt to changing environments and possess coping mechanisms to respond appropriately to continue functioning in the face of uncertainties inherent in academic and clinical environments. Qualities and characteristics that will be assessed during the admission and education process are compassion, integrity, concern for others, interpersonal skills, interest, and motivation. Students must recognize and display respect for differences in culture, values, and ethics among patients, faculty, peers, clinical and administrative staff and colleagues. Students must be able to identify and demonstrate appropriate behavior to protect the safety and well-being of patients, faculty, peers, clinical and administrative staff and colleagues. Students must also be able to handle situations appropriately and professionally when those situations may be physically, emotionally, or intellectually stressful, including those situations that must be handled promptly and calmly. At times, this requires the ability to be aware of and appropriately react to one's own immediate emotional responses and environment.

## **California Health Sciences University**

### **F. Ethical Values**

An applicant and student must demonstrate a professional demeanor, conduct and behavior that are appropriate to his or her standing in the professional degree program. This includes compliance with policies, procedures, ethics, codes of conduct and administrative rules applicable to: (a) the profession of osteopathic medicine; (b) the College of Osteopathic Medicine; and (c) the California Health Sciences University. Under all circumstances, students must protect the confidentiality of any and all patient information in their professional and personal communications. Students must meet the ethical standards set forth in the profession of osteopathic medicine.

### **G. Osteopathic Skills Labs and Physical Diagnosis Laboratory Policies**

All lab courses that include osteopathic manipulation and physical diagnosis/clinical skills courses include demonstrations, practical laboratory experiences and clinical opportunities. These courses require the active participation of all students in the group setting where students, through the active and tactile examination of others along with reciprocal examination, will learn and demonstrate the ability to evaluate and proficiently treat future patients.

The training of an osteopathic physician requires the ability to perform tactile examinations and osteopathic manipulative techniques on members of the same and opposite gender. The training of an osteopathic physician also requires that students experience and understand tactile diagnostic exercise and manipulative treatment. All students are required to participate both as patients and as examiners in the osteopathic skills lab and physical diagnosis lab and examine and be examined by members of the same and opposite gender, including but not limited to nationalities, ethnicities and other diverse groups.

As a graduate from the College of Osteopathic Medicine students have the ability to apply for licensure as a physician in all fifty states of the United States. The license is not restricted to any one particular gender, and therefore Osteopathic Medicine students must demonstrate the ability to practice medicine on both males and females.

In addition, students must be able to pass the requisite criminal background check, drug tests/screens, immunization/tests, and trainings required by, California law and/or California Health Sciences University College of Osteopathic medicine affiliated clinical training sites and their accrediting and/or regulatory agencies.

## **California Health Sciences University**

### **VIII. TRANSFER APPLICANTS NOT ACCEPTED**

CHSU-COM does not currently accept transfer applicants.

### **IX. DACA & INTERNATIONAL APPLICANTS**

#### **A. Deferred Action for Childhood Arrival (“DACA”) Applicants**

Deferred Action for Childhood Arrival (“DACA”) is an American immigration policy that allows certain undocumented immigrants who entered the country before their sixteenth (16<sup>th</sup>) birthday and who meet other restrictive criteria to receive renewable two-year work permits and exemption from deportation. CHSU welcomes applicants with DACA status to apply to its Osteopathic Medicine program. However, CHSU cannot guarantee licensure of DACA students by state licensing boards; the COM encourages all applicants with DACA status to communicate with the Osteopathic Medical Board of California, or the state where they plan to practice, to determine if they will be eligible to receive a license issued by that agency.

#### **B. International Student Applicants**

The COM does not sponsor visas for international applicants that require a visa to enter or remain in the United States.

International applicants who may lawfully enter or reside in the United States without the need for CHSU visa sponsorship are welcome to apply to the COM. However, the COM encourages all such applicants to communicate with the Osteopathic Medical Board of California, or the state where they plan to practice, to determine if they will be eligible to receive a license issued by that agency. Successful completion of the COM program does not guarantee all admitted students will receive such license. The COM will not be held liable to students who matriculate to CHSU and are later denied an osteopathic medical license in any state for any reason, including, but not limited to, denial on a basis related to undocumented or other ineligible immigration status.

International students follow the same application steps as all other applicants applying to the D.O. program. International students who have completed a bachelor’s degree in the United States will be exempt from the requirements listed below, and will be subject to the same admissions standards as described above.

At this time CHSU does not offer English Language Services to international students and fluency in English is required of all students. No instruction will occur in a language other than English.

## California Health Sciences University

With regard to international students who have not completed a bachelor's degree in the United States, the COM will consider such application within the context of that applicant's home country's educational environment, subject to the following additional requirements:

- International applicants must provide official copies of academic records (translated into English if received in a foreign language) from all colleges or universities attended after high school or equivalent.
- International applicants with U.S. permanent resident status and/or naturalized citizenship and holders of international visas who complete prerequisite courses from outside the United States must either: (a) submit an official evaluation of their coursework and degree(s), if any, from the World Education Services ("WES") (<http://www.wes.org/>) to AACOMAS; or (b) submit an official evaluation of their coursework and degree(s), if any, from International Education Research Foundation ("IERF") at <http://www.ierf.org/> to CHSU. Students may be exempt from the WES or IERF requirements as determined on a case-by-case basis.
- International applicants applying to attend CHSU who are from a country where English is not the primary language spoken must submit scores on the Test of English as a Foreign Language ("TOEFL"). These scores may be submitted through AACOMAS. Minimum TOEFL scores required for admission are as follows:

<u>TEST TYPE</u>	<u>SCORE</u>
Paper-Based TOEFL	550
Computer-Based TOEFL	213
Internet-Based TOEFL	100

### X. ARTICULATION AGREEMENTS AND PATHWAYS PROGRAMS

The COM has not entered into any articulation agreements with undergraduate education institutions. CHSU has policies regarding articulation agreements and related pathways programs and the COM will abide by such policies in the future development of such programs.

### XI. RE-ADMISSION OF PRIOR CHSU COM STUDENTS

## **California Health Sciences University**

Students who withdraw from CHSU-COM, regardless of the reason, may be considered for readmission upon re-application. This policy does not apply to students who have been dismissed for academic performance or misconduct. Students that have been dismissed from CHSU-COM for any reason may not seek readmission to CHSU-COM.

Re-admission applicants are required to comply with all of CHSU-COM's admissions requirements for non-readmission applicants. In addition, applicants must submit a letter to the CHSU-COM Admissions Department that includes the following information:

1. Reason for withdrawal
2. Status/activities/academic and professional pursuits since withdrawal
3. Reasons why the applicant should be considered for re-admission

All documents must be submitted at least ninety (90) days in advance of the academic year during which the applicant wishes to re-enroll. The Admissions Committee will review the application for readmission and reserves the right to request additional supporting documentation. All applicants will receive written notification of the Committee's decision via email.

In all cases of re-admission, students must complete the program within the maximum length of time permitted by the COM Graduation Requirements.

CHSU-COM may, in its sole discretion, allow the student to re-enroll in the next class of the same program, with the same enrollment status, number of credits and academic standing as when the student last attended CHSU- COM. The student may also request admission at a later date, so long as completion of the program occurs within the time frame required by CHSU-COM's accreditor, COCA, as explained above. If the school determines that the student is not prepared to resume the program where they left off, the school must make reasonable efforts to help the student resume and complete the program. Such reasonable efforts include, but are not limited to, providing a refresher course and allowing the student to retake a pretest, as long as such requirements do not place an undue hardship on the College. If reasonable efforts are unsuccessful or the school determines that there are no reasonable efforts that can be taken, the school is not required to readmit the student.

## **XII. DEFERMENT OF ADMISSIONS**

An offer of admission applies only to the specific academic year for which the applicant has applied. Applicants who are not able to attend the College of Osteopathic Medicine in the specific academic year to which they have applied and subsequently have been admitted, will need to reapply for admission. Consequently, a student who was admitted to one academic year but does not ultimately matriculate, may not necessarily be offered admission in another academic year.

## California Health Sciences University

Under certain circumstances, an applicant's request for deferring admission may be considered on a case-by-case basis. Applicants seeking deferment must make such a request following admission in writing to the Office of Admissions. Applicants may be required to submit relevant documentation supporting their deferment request. These requests will be forwarded to and then reviewed by the Dean. Ultimately, these requests will be either granted or denied solely at the discretion of the Dean of the College of Osteopathic Medicine.

Applicants who have been granted deferment will not need to reapply to CHSU and will be permitted to attend CHSU in the semester to which their admission has been deferred. Deferred applicants must continue to meet all CHSU requirements during the entirety of the deferment period. Prior to enrollment, deferred applicants will need to comply with all admission criteria that were in place at the time they were initially offered admission into the College of Osteopathic Medicine, and not the admission requirements that are in place at the time the applicant actually attends CHSU.

### **XIII. RETENTION OF ADMISSIONS RECORDS**

#### **A. Applicants That Matriculate to CHSU**

The CHSU Office of the Registrar maintains a record for each enrolled graduate student at CHSU. Upon enrollment, the applicant file for each student will be maintained in the COM Office of Admissions in accordance with the University's policy on record retention.

#### **B. Applicants That Do Not Matriculate to CHSU**

Application materials submitted by applicants that were denied admission or who declined an offer of admission will be maintained by the COM's Admission office as follows:

- International Applicants: three (3) years from date of decision/declination;
- All other Applicants: two (2) years from date of decision/declination.

Thereafter, the records will be shredded or otherwise disposed of in a manner that maintains confidentiality of the information in accordance with the University's policy on record retention.

### **XIV. ADDITIONAL ENROLLMENT REQUIREMENTS**

## California Health Sciences University

All offers of admission to the COM are conditional on meeting additional pre-enrollment requirements. All admitted students must meet the following criteria in order to enroll in the COM:

### **A. Health Insurance**

As an institution dedicated to the study of health care, CHSU places a great emphasis on personal health and well-being. The CHSU requires that all students be covered by a comprehensive medical and prescription drug insurance plan as required by the CHSU Student Health Insurance Policy.

### **B. Criminal Background Check and Drug Screening**

Clinical education sites require students to undergo a criminal background check and drug screening prior to participation in clinical education curriculum. Therefore, all admitted students must successfully complete a criminal background check and drug screening prior to enrollment in the COM. In addition, students must be able to pass the requisite criminal background check, drug tests/screens, immunization/tests, as these may be required by either California law and/or California Health Sciences University College of Osteopathic Medicine affiliated clinical sites and their accrediting and/or regulatory agencies.

Admitted students will need to complete both the criminal background check and the drug screening through a designated third-party agency. CHSU will provide all students the relevant information to be able to complete both the criminal background check and the drug screening. Once completed, the third-party agency will release the background check and drug screening results to the applicant and CHSU. The COM encourages all applicants with potential issues on their background checks to communicate with the Osteopathic Medical Board of California to determine if they will be eligible to receive licensure by that agency. The College cannot guarantee all admitted students will receive such license.

Acceptance to the program will become final once the Office of Admissions verifies that all required information has been received and that the outcome of the background check is satisfactory. After enrollment, background checks and drug screenings may be repeated for each student annually before the beginning of each academic year as needed to ensure eligibility for participation in experiential education curriculum. The cost of initial and repeat background

## California Health Sciences University

checks and drug screenings is the responsibility of the admitted or enrolled student.

### **C. Immunization Requirements**

Admitted students must comply with immunization requirements as listed on the CHSU Accepted Students' Webpage. Immunization requirements are established yearly by the COM Office of Student Affairs.
