

## COP Financial Aid for 2018

Numbers are compared to the national benchmark compiled by the American Association of Colleges of Pharmacy (AACP).

Percentage of students who reported borrowing money to help pay for college expenses in the PharmD program:

Despite the debt burden from pursuing a professional degree, students surveyed in the graduating student survey indicate the following about their choice to study pharmacy:

**100%** of CHSU students indicated\* they are prepared to enter pharmacy practice (compared to 94.9% nationally)

**81.6%** of CHSU students indicated\* that if they were starting their college career again, they would choose to study pharmacy (compared to 81.8% nationally)

\* indicated = strongly agreed or agreed
